TAKE A HIKE

Pictured Rocks National Lakeshore

This amazing Hike hugs the south shore of Lake Superior in Michigan's Upper Peninsula. It's known for the dramatic multicolored Pictured Rocks cliffs. Unusual sandstone formations like Miners Castle and Chapel Rock define the park's headlands. Twelve mile Beach has a trail through a nearby white birch forest. Remnants of shipwrecks dot the shoreline around Au Sable Point's 19th-century lighthouse.

GRAB A BITE

The Whitney- Detroit

The bread that welcomes you is some of the best around, fantastic, rich and buttery, crunchy and cheesy. They offer some traditional appetizers to start your meal, including jumbo shrimp with fiery cocktail sauce, beef tips on toast, lump crab cakes, wedge salad, and crab bisque. For dinner, a classic Beef Wellington is spot on, with a rich, decadent addition of foie gras to the tenderloin before it gets wrapped in crispy puff pastry. Sweet, roasted heirloom carrots add a nice complement to the dish. Another specialty is the seafood saute, which comes chock-a-block with loads of shrimp, scallops and lobster in a beautiful, herby butter sauce and is served over toasted orzo pasta.

VISIT A DRIVE IN MOVIE

Drive in Movie's are the new "Movie Theater"

Theaters have been closed for most of the year but that shouldn't stop you! You can watch your movie at any of the outdoor theaters that Michigan has to offer. Whether it's at the drive-in or the rooftop poolside theater or even at a local concert venue, you can be sure that each has taken precautions to abide by social distancing guidelines. So grab a friend, some popcorn, maybe a drink of choice and enjoy!
